

## The specialist in Canvas Printing

SimpleCanvas.com, the specialist in Canvas printing, offers you the chance to have your own bespoke Canvas. Utilising the latest technology we offer the highest quality in canvas printing and canvas print finishing.

At SimpleCanvas our canvas prints are printed and stretched on specialist archive canvas material, whether it's a treasured family photo, wedding day memory, favourite holiday photo or dramatic landscape - your canvas will look as good for a lifetime as on the day it was framed. Our canvas frames are made of pine and available in two different depths, 2cm and extra chunky 5cm. The timber is sourced from managed pine forests in Europe and is carefully selected and stored. Then the wood is kiln dried to 11% moisture content for stability. The hinges are then cut into each end to allow the frames to expand after the canvas has been mounted, this means if your canvas ever goes saggy over time you can re-stretch it without having to take it off the frame! The final stage of our canvas process is the application of two coats of lacquer. These are applied with a spray gun and compressor to ensure an even coverage and finish like no other. Your canvas will have the typical authentic look but a slight 'glisten' when the light catches it. Whether the Canvas print is from your original photo or from one of our continually refreshed images from our "Gallery Page" within our website "www.simplecanvas.com", a SimpleCanvas fine art canvas prints will look great in your lounge, dining room or bedroom. In fact, wherever you choose to hang it, a SimpleCanvas canvas print is just as much at home in any office, restaurant, bar or hotel. Our general turnaround for our canvas prints is 5 working days. Each canvas comes in its own unique box and individually bubble wrapped within the box, to ensure durability. The packing of your Canvas print is extremely important and we ensure that your Canvas arrives at your doorstep on time and 100% perfect. All canvas printing and framing is produced from our own workshops based in the West Midlands. We deliver our canvas prints by insured courier throughout the UK, Europe and the USA.
